Packages of around 2-4 traps

Each package either tries to cover all types of variety of traps **OR** leans into a niche that keeps an expandable theme!

The traps can be easily changed and developed upon to fit each pack, so don't be afraid to chip in on how the traps could work!

Each package's **"price tag"** will be the amount of **Mechanical Load** it has:
a higher load means more "new things going on"

Things Worth Considering

Existing Guaranteed Features

- Player Slightly Tilts Based On Speed
- Constant Uneven Terrain Throughout Level that can adjust to the traps we pick!
- Slight / Adjustable Homing on the Egg
- Most of these would also require a cushioned floor; this icon indicates it:

Rating Criteria

- Each Trap in the brainstorming PowerPoint was ranked with a criterion
- This can be seen on the next page
- Traps that are similar will likely not be in the same package

Criterion – Not all traps will be used

Package 1

Variety Pack 1

Variety Pack 1

Focuses on a versatile, expandable kit that touches on Platforming, Pushback and Puzzles within the same 3 mechanics. Not as “trappy” and more like Getting over It.

Spring Trap

To add more advanced and engaging launching, use of both the player and egg

Wind Trap

To challenge the player’s balance and create more tense (but consistently fair scenarios)

Switch Trap

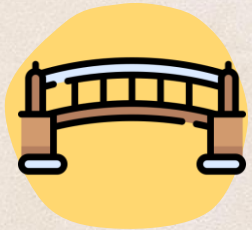

To allow for more expandable “puzzle” usage out of the wind and Spring

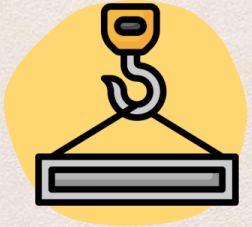

Variety Pack 1

Optional Additional Traps

Bridges

Adds a more “dynamic” trap, more engaging without adding additional mechanics

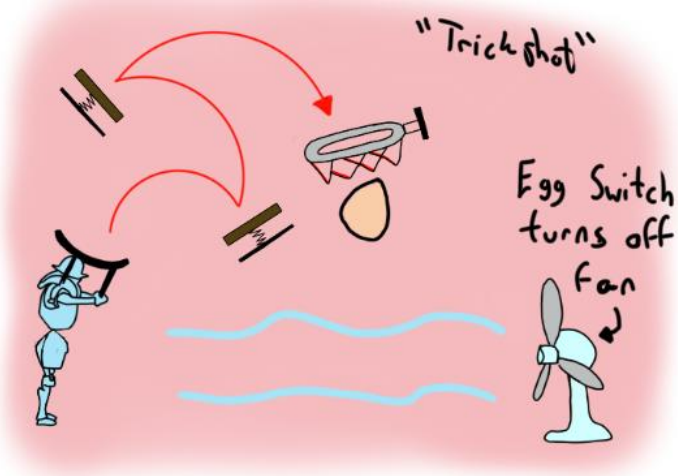

Tilting Platform

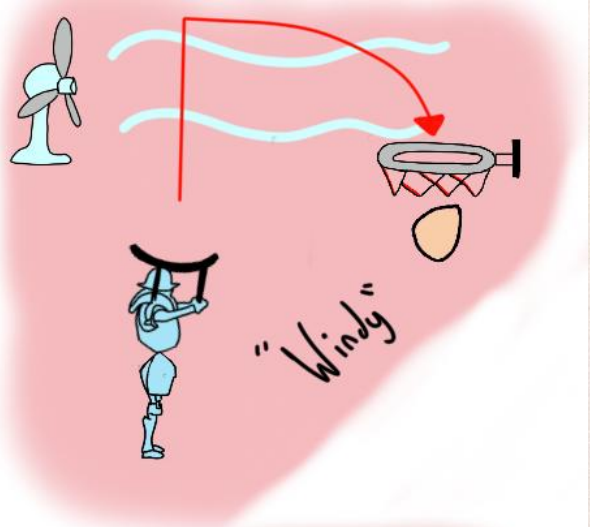

Similar to the Bridges

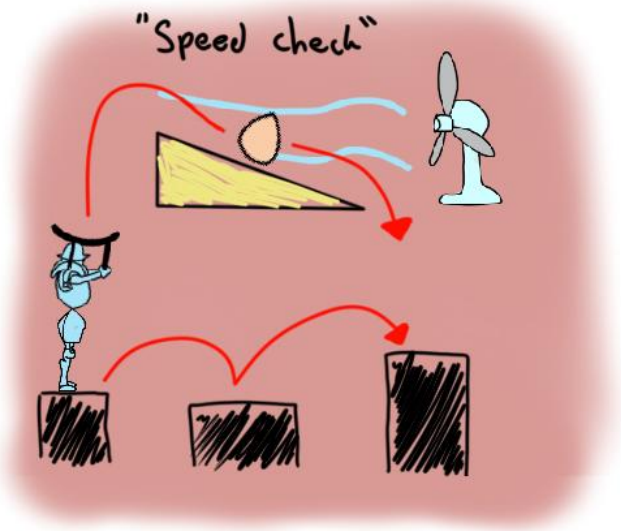

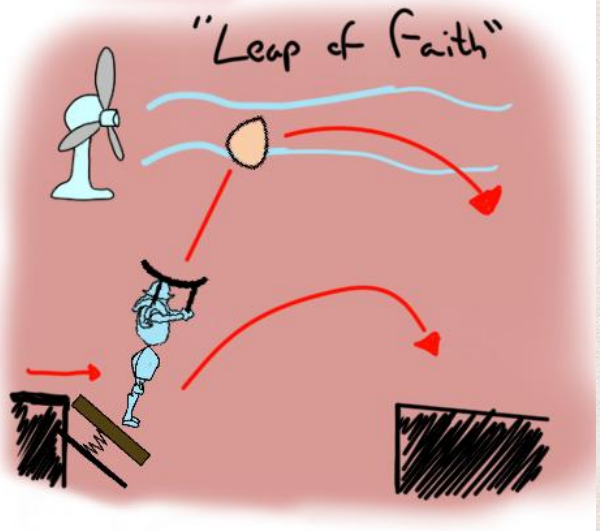

Fire Trap

Adds a more aggressive modular obstacle that can be used in a variety of ways

Variety Pack 1

Pack experimentation Brainstorm

Package 2

Variety Pack 2

Variety Pack 2

Less Emphasis on Puzzles and more on Platforming, Navigation and Traps. Very much simplifying down the complexity to “don’t get hit”

Fire Trap

A modular trap more focused on Cycles

Wind Trap

A more environmental/passive trap tests the player balance

Barrel Trap

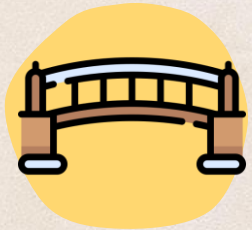

A more mobile / action-based trap that keeps engagement

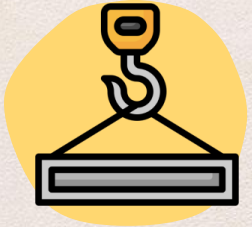

Variety Pack 2

Optional Additional Traps

Bridges

Low-Cost additional Environmental Trap

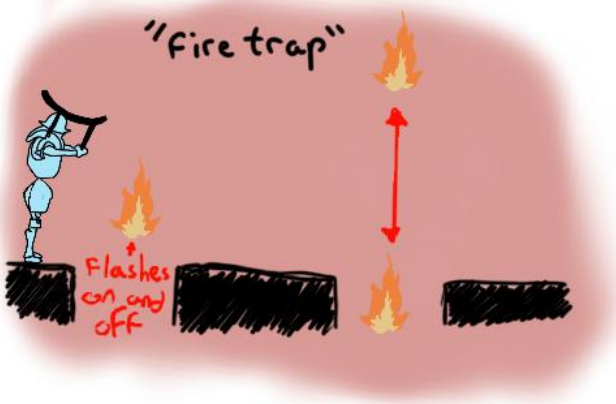

Tilting Platform

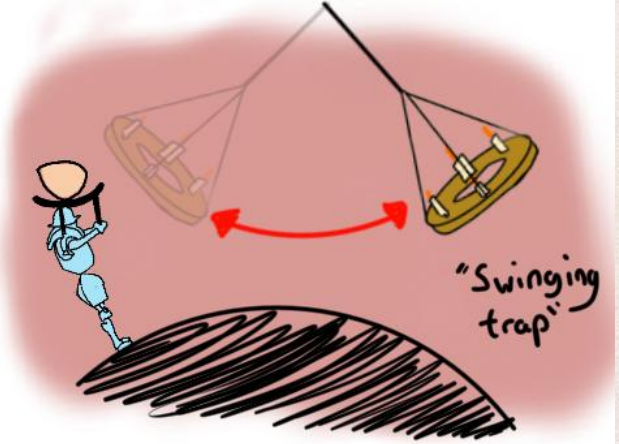

Similar to the Bridges

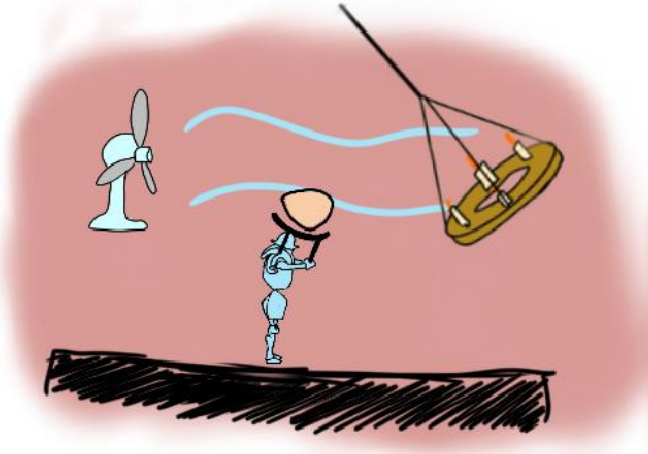

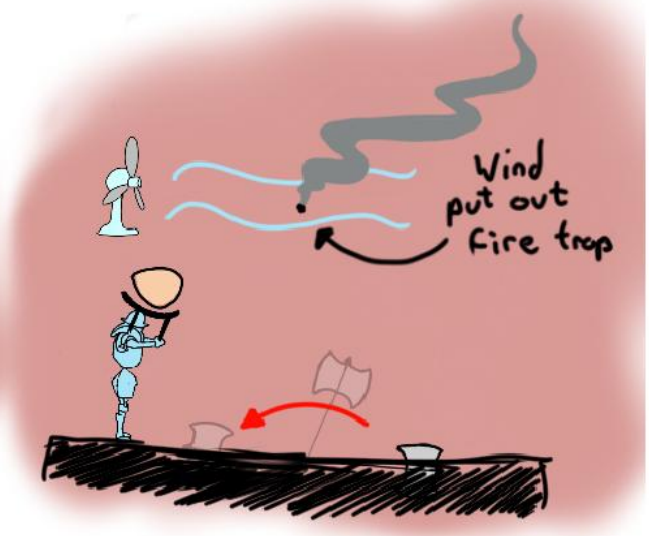

Swinging Axe

Sweet Spot between Mobile and Stationary. Could be tweaked to be more multiplicative (i.e. swinging chandeliers you can stand on)

Variety Pack 2

Pack experimentation Brainstorm

Package 3

Variety Pack 3

Variety Pack 3

A set of traps that would emphasise maintaining balance and puzzle-solving. The main focus around manipulating barrels and giving them many multiplicative uses.

Tilting Platform

Environmental trap that can react with both the player and barrel

Switch

Switches that give players agency over the traps. Adds a lot of utility

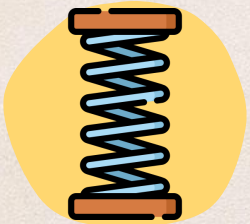

Barrel Trap

Would react with the other two traps in unique ways and create an expandable system

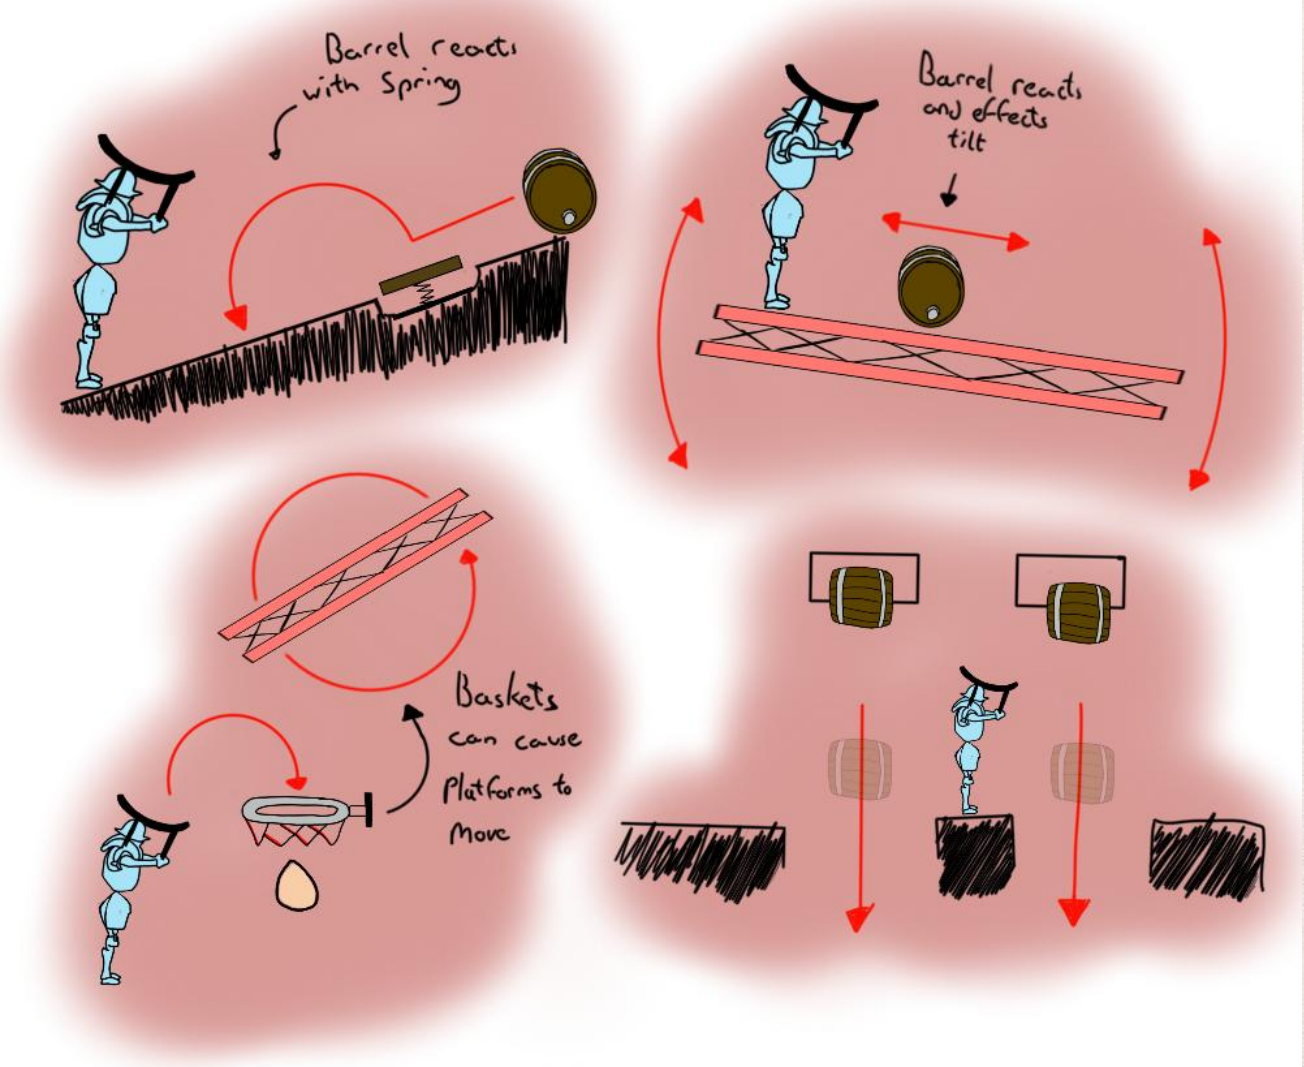

Variety Pack 3

Optional Additional Traps

Spring

Would have furthered the barrel utility as well as the switches and platforming

Variety Pack 3

Pack experimentation Brainstorm
